

POWER FAILURE ALARM

Power failure alarm with several unique features that make it the most capable power fail alarm available. When power fails, the LED flashes and an exceptionally loud buzzer sounds that produces 103 dB at 2 feet. (comparable to a smoke alarm) In addition, a flashlight comes on automatically to illuminate the area.

It is the only power fail alarm with “plug detection”: if your plug gets pulled out of the unit’s receptacle, the alarm sounds.

POWER FAILURE ALARM - MODEL PFA-4

Many more features make this the most advanced power alarm on the market:

- Additional white “flashlight” 1W LED so it can be used as a flashlight.
- Low battery alert.
- External outputs can be connected to home alarm systems, phone dialers.
- Convenient pass-through receptacle.
- Bright blinking LED has wide angle visibility.
- A convenient button silences or tests the alarm.
- Snooze alarm.
- 10 year lithium battery included.
- Many different modes allow you to choose the behavior. (momentary interruptions or sustained outages for example)

Power-sipping circuitry results in a battery life of at least 10 years.

Detect power failures immediately. to ensuring reliable power for freezers, heating systems, medical equipment and more. The most advanced power outage alarm. Period.
